2 Row	Conlon	89	87 Days	Good	34 Inches	MR	Feed

Oat Type	Variety	Yield	Maturity	Lodging	Height	Crown Rust	Test Weight
White	Souris	134	92 Days	Good	33 Inches	R	39.8
White	CS Camden	149	98 Days	Good	33 Inches	MS	37.8
White	Stride	134	94 Days	Very Good	38 Inches	R	39.9

Seed Treatments

Ellis Seeds carries a wide selection of seed treatments, and with our custom-built seed treater we can apply two different products at the same time. We carry a variety of treatments including:

Rancona Apex	Awaken ST 6-0-1 with Micronutrients
Raxil Pro Shield	Nodulator Pro Plus Integral Inoculant
CruiserMaxx Beans	Tag Team Inoculant
CruiserMaxx Cereals	Jumpstart
EverGol Energy	Cell-Tech Inoculant

Soil health is very important to us. Choosing the right seed treatment or no treatment for your field's specific needs is what sets us apart.

The advertisement features a hockey player in a black and yellow jersey with the number 19, wearing a CCM helmet and gloves, standing in a field of golden wheat. The background is a clear blue sky. The SeCan logo is in the top left corner. The main title 'The NEW Wheat King AAC Brandon CWRS Wheat' is prominently displayed in the center. To the right, a list of benefits is shown with checkmarks. At the bottom left, there are logos for 'Certified Seed' and 'PQR'. The bottom right corner features the slogan 'Genes that fit your farm.®'.

Forage/Lawn

Type	Name	Information
Hay Blend	#1 Super Hay	Excellent 2 nd cut alfalfa/grass mix.
Hay Blend	#5 Super Pasture Hay	Quick drydown time in a swath.
Pasture Blend	#11 Cattleman's Choice	High protein pasture with strong regrowth, quick to establish.
Misc.	#13 Saline	Quick establishment in saline areas. Helps reclaim saline areas over time.
Cover Crop	Radish	Excellent for green manure. Large taproot can reach depths of 30 inches to break up hardpan.
Lawn	All Purpose Mix	Well suited to sun or shade.

Thank you for taking time to read our seed guide. It represents our favorite varieties for Manitoba. If you are interested in a variety not listed, please let us know, and we will do our best to get it for you.

Every year, we try to improve your experience at Ellis Seeds. New varieties, new cleaning equipment, new handling equipment, increased storage and modernization of computerized processes, make up this year's improvements.

You can pick up your seed in the spring, treated the way you want it, when you want it. The handling and treating system loads your truck at 60 to 100 bushels per minute, making this the fastest part of your day.

New this year, in recognition of our customers who buy nearly all of their seed from us, we are offering our quality seed at wholesale pricing.

Leave out the middleman, and deal directly with the seed source. We grow and clean the seed we sell so you know it is going to be a high, consistent quality not found anywhere else.

We hope you found this seed guide valuable and we look forward to working with you this coming year.

Sincerely,

Simon & Warren Ellis
