COMMENTS

Young R2X is a new Roundup Ready 2 Xtend[®] soybean variety with a early maturity and a nice tall upright plant structure, making it easy to harvest. Young R2X has shown great yield and fantastic IDC tolerance, rating 1.7 from MB Agriculture. We look forward to seeing its yield in Seed Manitoba this year!

- Medium/tall height, with a medium bushy plant type that stands great!
- High yields in private trials
- Cyst nematode resistance gene and phytophthora and IDC make this a very defensive bean!
- Dicamba provides excellent control of ragweed and wild buckwheat

Monsanto Company is a member of Excellence Through Stewardship[®] (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. These products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from these products can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for these products. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready 2 Xtend[®] soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your local crop protection dealer or call the technical support line at 1-800-667-4944 for recommended Roundup Ready[®] Xtend Crop System weed control programs.
